

Coronavirus Impact on Global Supply Chains

June 2020

Table of Contents

INTRODUCTION

Scope

COVID-19 IMPACT ON SUPPLY CHAINS

Key findings (1)

Key findings (2)

COVID-19 exposed the risks of global supply chain network

COVID-19 had an extensive impact on supply chains across all regions

China's example shows industrial sector could face double shock

Government coordination will be crucial for recovery

Industries with most sensitive supply chains

Supply chain sensitivity index assumptions

INDUSTRIES WITH MOST SENSITIVE SUPPLY CHAINS

Pharmaceuticals manufacturers expected to diversify supply chains

Agriculture industry is sensitive to transportation bottlenecks

Automotive companies plan production reshoring to diversify supply

Hi-tech goods companies to accelerate production diversification

Machinery industry's supply chain to become more regionalised

Food products industry to become more localised

LONG-TERM SUPPLY CHAIN CHANGES

COVID-19 to have a long-lasting impact on supply chains

Digital strategies and better planning are key to prevent future risks

China could lose its central position in the global supply network

Production of critical components to become more regionalised

EU plans to strengthen its supply chains

Production regionalisation would hurt emerging economies

ROLE OF DIGITAL AND AUTOMATION TOOLS

Companies expected to invest more in e-commerce

COVID-19 outbreak to accelerate investments in automation

Automation could accelerate employment growth in the long term

Network of microfactories could make supply chains more flexible

Case study: GE Appliances expands microfactory network to India

3D printing would help to diversify supply chains

Case study: 3D printing companies help to fight COVID-19

Digital tools to help better track changes in the supply chain

Key takeaways

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer

trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.

For more information on this report, further enquiries can be directed via this link www.euromonitor.com/coronavirus-impact-on-global-supply-chains/report.
