

# Innovation in Dairy Products and Alternatives

September 2023

Table of Contents

## INTRODUCTION

Scope

Key Findings

## WHERE IS THE DAIRY INDUSTRY HEADING?

Value growth but volume decline: The shifting trends in the dairy industry

Dairy set to struggle in the West while plant-based alternatives gain ground

Innovation to bring new life into the dairy aisle

## COPING WITH INFLATION

Rising inflation takes a toll on the dairy industry

Price hikes impact prominent dairy and alternatives brands including Lurpak and Oatly

Wide range of strategies employed in an effort to cope with the ongoing impact of inflation

Innovating through inflation: The industry's agile strategies for profitability and affordability

The rise of private label is revolutionising the dairy and plant-based industries

Beyond Western markets: Private label takes the spotlight in Turkey

## WELLNESS AND NUTRITION

Milking innovation for added value: The power of health and wellness in the dairy industry

Why one size does not fit all in the dairy industry

Dairy losing ground in the protein game as the industry lags behind in promoting it

Unlocking protein demand surges in selected markets

An expanding market for probiotics and a more holistic gut health positioning

The US gives signposts of future gut health innovation coming to the dairy aisle elsewhere

Energy, cognitive function and memory health lead need states positionings in dairy

The dairy industry has potential in natural sleep and stress-reducing offerings

Need states by popular ingredient

## LIFESTAGE NUTRITION

Targeting children: Claims around added vitamins and fibre increasingly desired by parents

Milk formula for adults: A growing opportunity in healthy ageing

Unlocking Yili's lifestage nutrition insights for portfolio segmentation

## PLANT-BASED DAIRY

Despite a slight slowdown, plant-based dairy continues to show promising growth

Plant-based milk shifting ingredient dynamics from soy to oats

Optimising taste and nutritional content with high-protein plant-based ingredient blends

Unlocking the potential of Bambara groundnut, a nutritious and sustainable African crop

Plant-based innovation expands beyond core categories and capitalises on coffee creamers

Redefining the future of dairy with tech-driven innovations

The dairy industry's progressive transformation from cows to cultures

Bel Group's 3-pronged tech-driven innovation strategy for cheese production

## SUSTAINABLE DAIRY

Consumer environmental consciousness vs willingness to pay: A challenging disparity

Western markets lead in the dairy industry's sustainability landscape

Locally-sourced dairy: An affordable and satisfactory alternative to organic

Consumer-centric and corporate-driven innovation: Driving engagement and impact

Consumer education on sustainable offerings is essential for future success

## EVOLVING EATING OCCASIONS: EXPERIENTIAL DAIRY

Exploring unconventional product innovation through sensory experiences

The metaverse as a new frontier for engagement in the dairy industry

## KEY RECOMMENDATIONS

#### About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.

For more information on this report, further enquiries can be directed via this link [www.euromonitor.com/innovation-in-dairy-products-and-alternatives/report](http://www.euromonitor.com/innovation-in-dairy-products-and-alternatives/report).
